# Finding the Cure...

One rainy day, Uni is feeling very off about something. Something feels wrong, wrong everywhere, and he can't shake it. Little does he or anyone else know, something is happening outside of their prison known as the hospital, something that's a long, long time coming... and is only the beginning of a journey to what just might be their freedom.

Pronouns: they/them
Position: Doctor
Faves: ...Does it matter?

...hey, woah, what's going on, Sockie?
...I had a nightmare...
Oh dear... well, come on in.

Here, hold on...

Do you wanna tell me about your nightmare?
...I-I dreamt that... everything fell apart...
Everything went wrong... it was horrible...

...I'm sorry you dreamt that, Sockie.
I-I wish the other doctors were as supportive and understanding as you are to me... I wish you could be here during the day...
Well, I'm a night shift doctor, I can't exactly be here then. At least I can support you if you have a nightmare, though.
T-things are just so hard sometimes...
...t-thank you for letting me hold your dolls when I'm afraid... ever since I lost Bearry it's been really scary...

I-I mean, people think dolls like teddy bears are girly and it's weird for me to like them...
Well, don't worry about those people. You can like whatever you want if it makes you feel safe and happy.
...why do you collect so many, anyways?
Well, being here at night when it's dark scares me a little too. They make me feel less... alone.

That's kinda how I was with Bearry. He helped me feel less alone...
I wish Doom didn't have to take him away.
I-I don't even know where he is now.... h-h-he's probably rotting alone in that dump... a-a-all by h-h-himself...

Sockie... do you maybe want to have that doll?
...r-really?
Yeah. You'd have to keep it hidden, but... when you're alone and I'm not around during the day, I'll be with you.

T-thank you bro... you make it all a little easier.
I care about you. It's the least I can do.

Now, why don't you run along and get some more sleep? I'll see you tomorrow.
O-okay, bro... thank you again.
I hope this one doesn't get taken away...
I'd hate to lose something else again.

What about yourself, Cornelius?
I-I'm swag bro, epic win, like a boss.

Naturally.
L-like, totally pwning it today bro, trolling the haters, haters gonna hate.
Sounds like quite a busy day for you.

W-what do you think we're gonna do in OT, bro?
Probably more arts and crafts.
I hate how the nice staff members treat us like little kids. We're adults.
I don't think they're treating us like little kids bro.
Making us do childish arts and crafts seems a lot like infantilization to me.

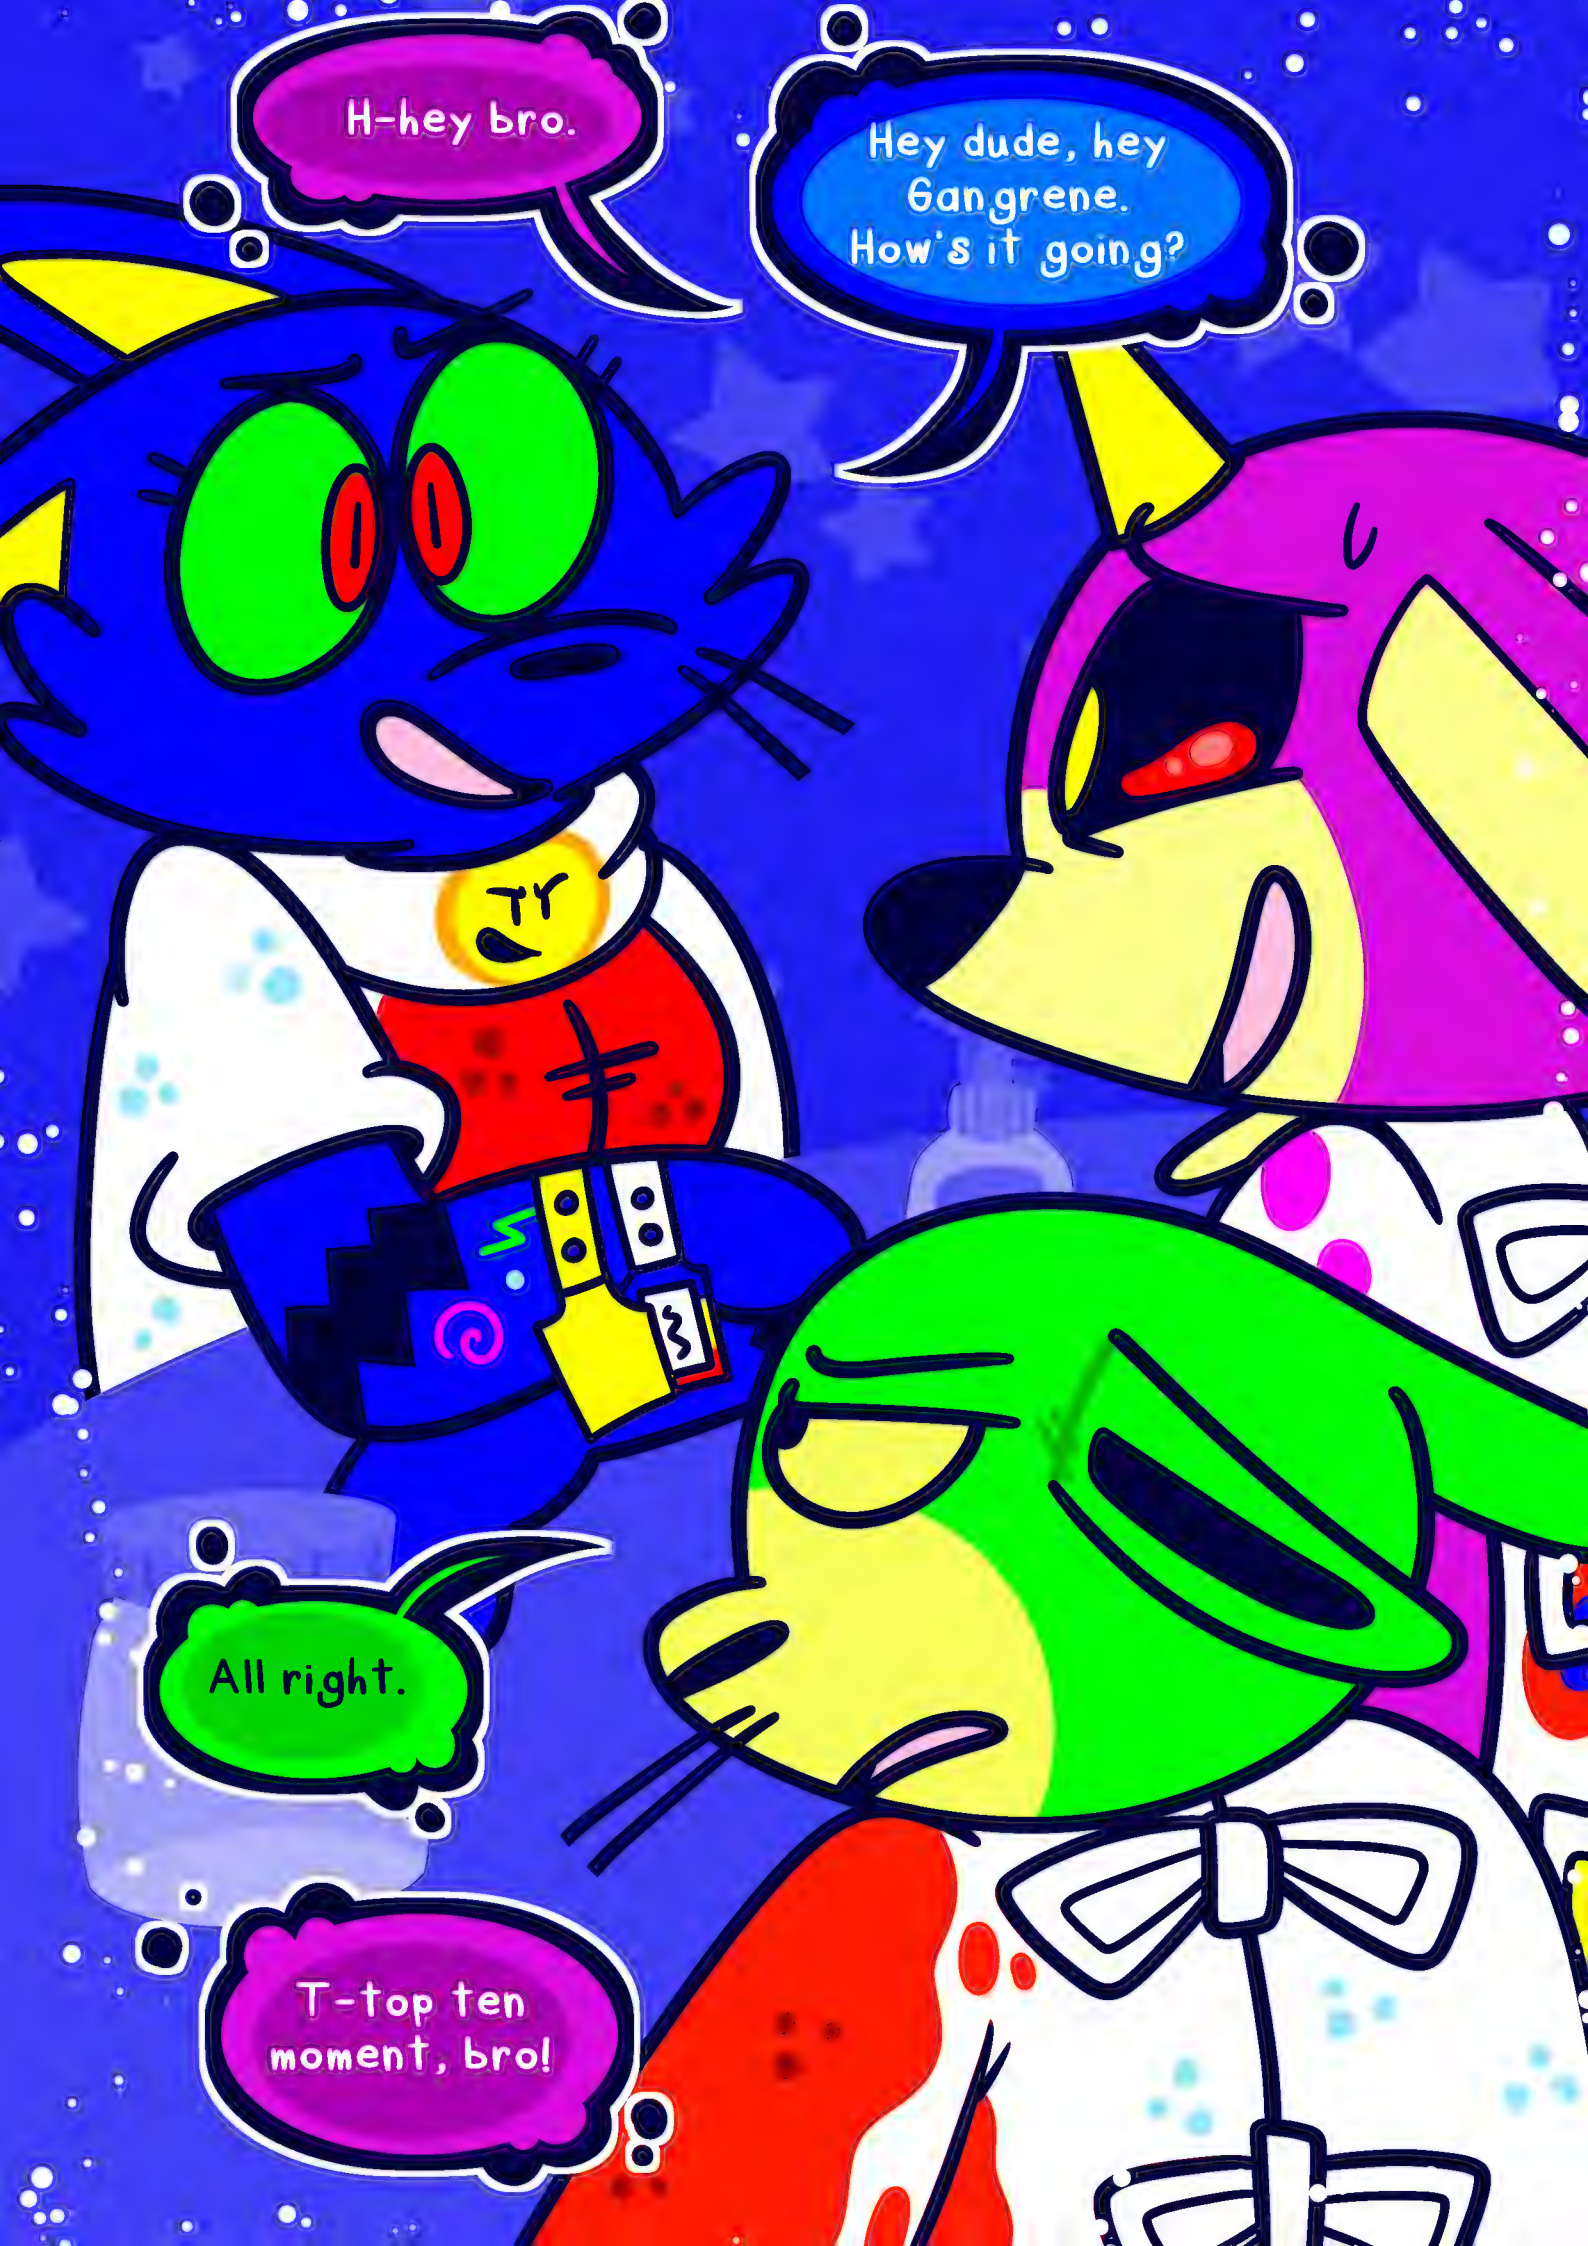
"Not treating us like little kids" huh?



H-hey bro.
Hey dude, hey Gangrene. How's it going?
All right.
T-top ten moment, bro!

Why don't you go sit somewhere else, TURNIP HEAD?

For the last time, I'm Jay's caregiver, I literally have to stay with them.

Carrie, will you please just stop? Acting like this isn't gonna suddenly change the past. You should just move on.

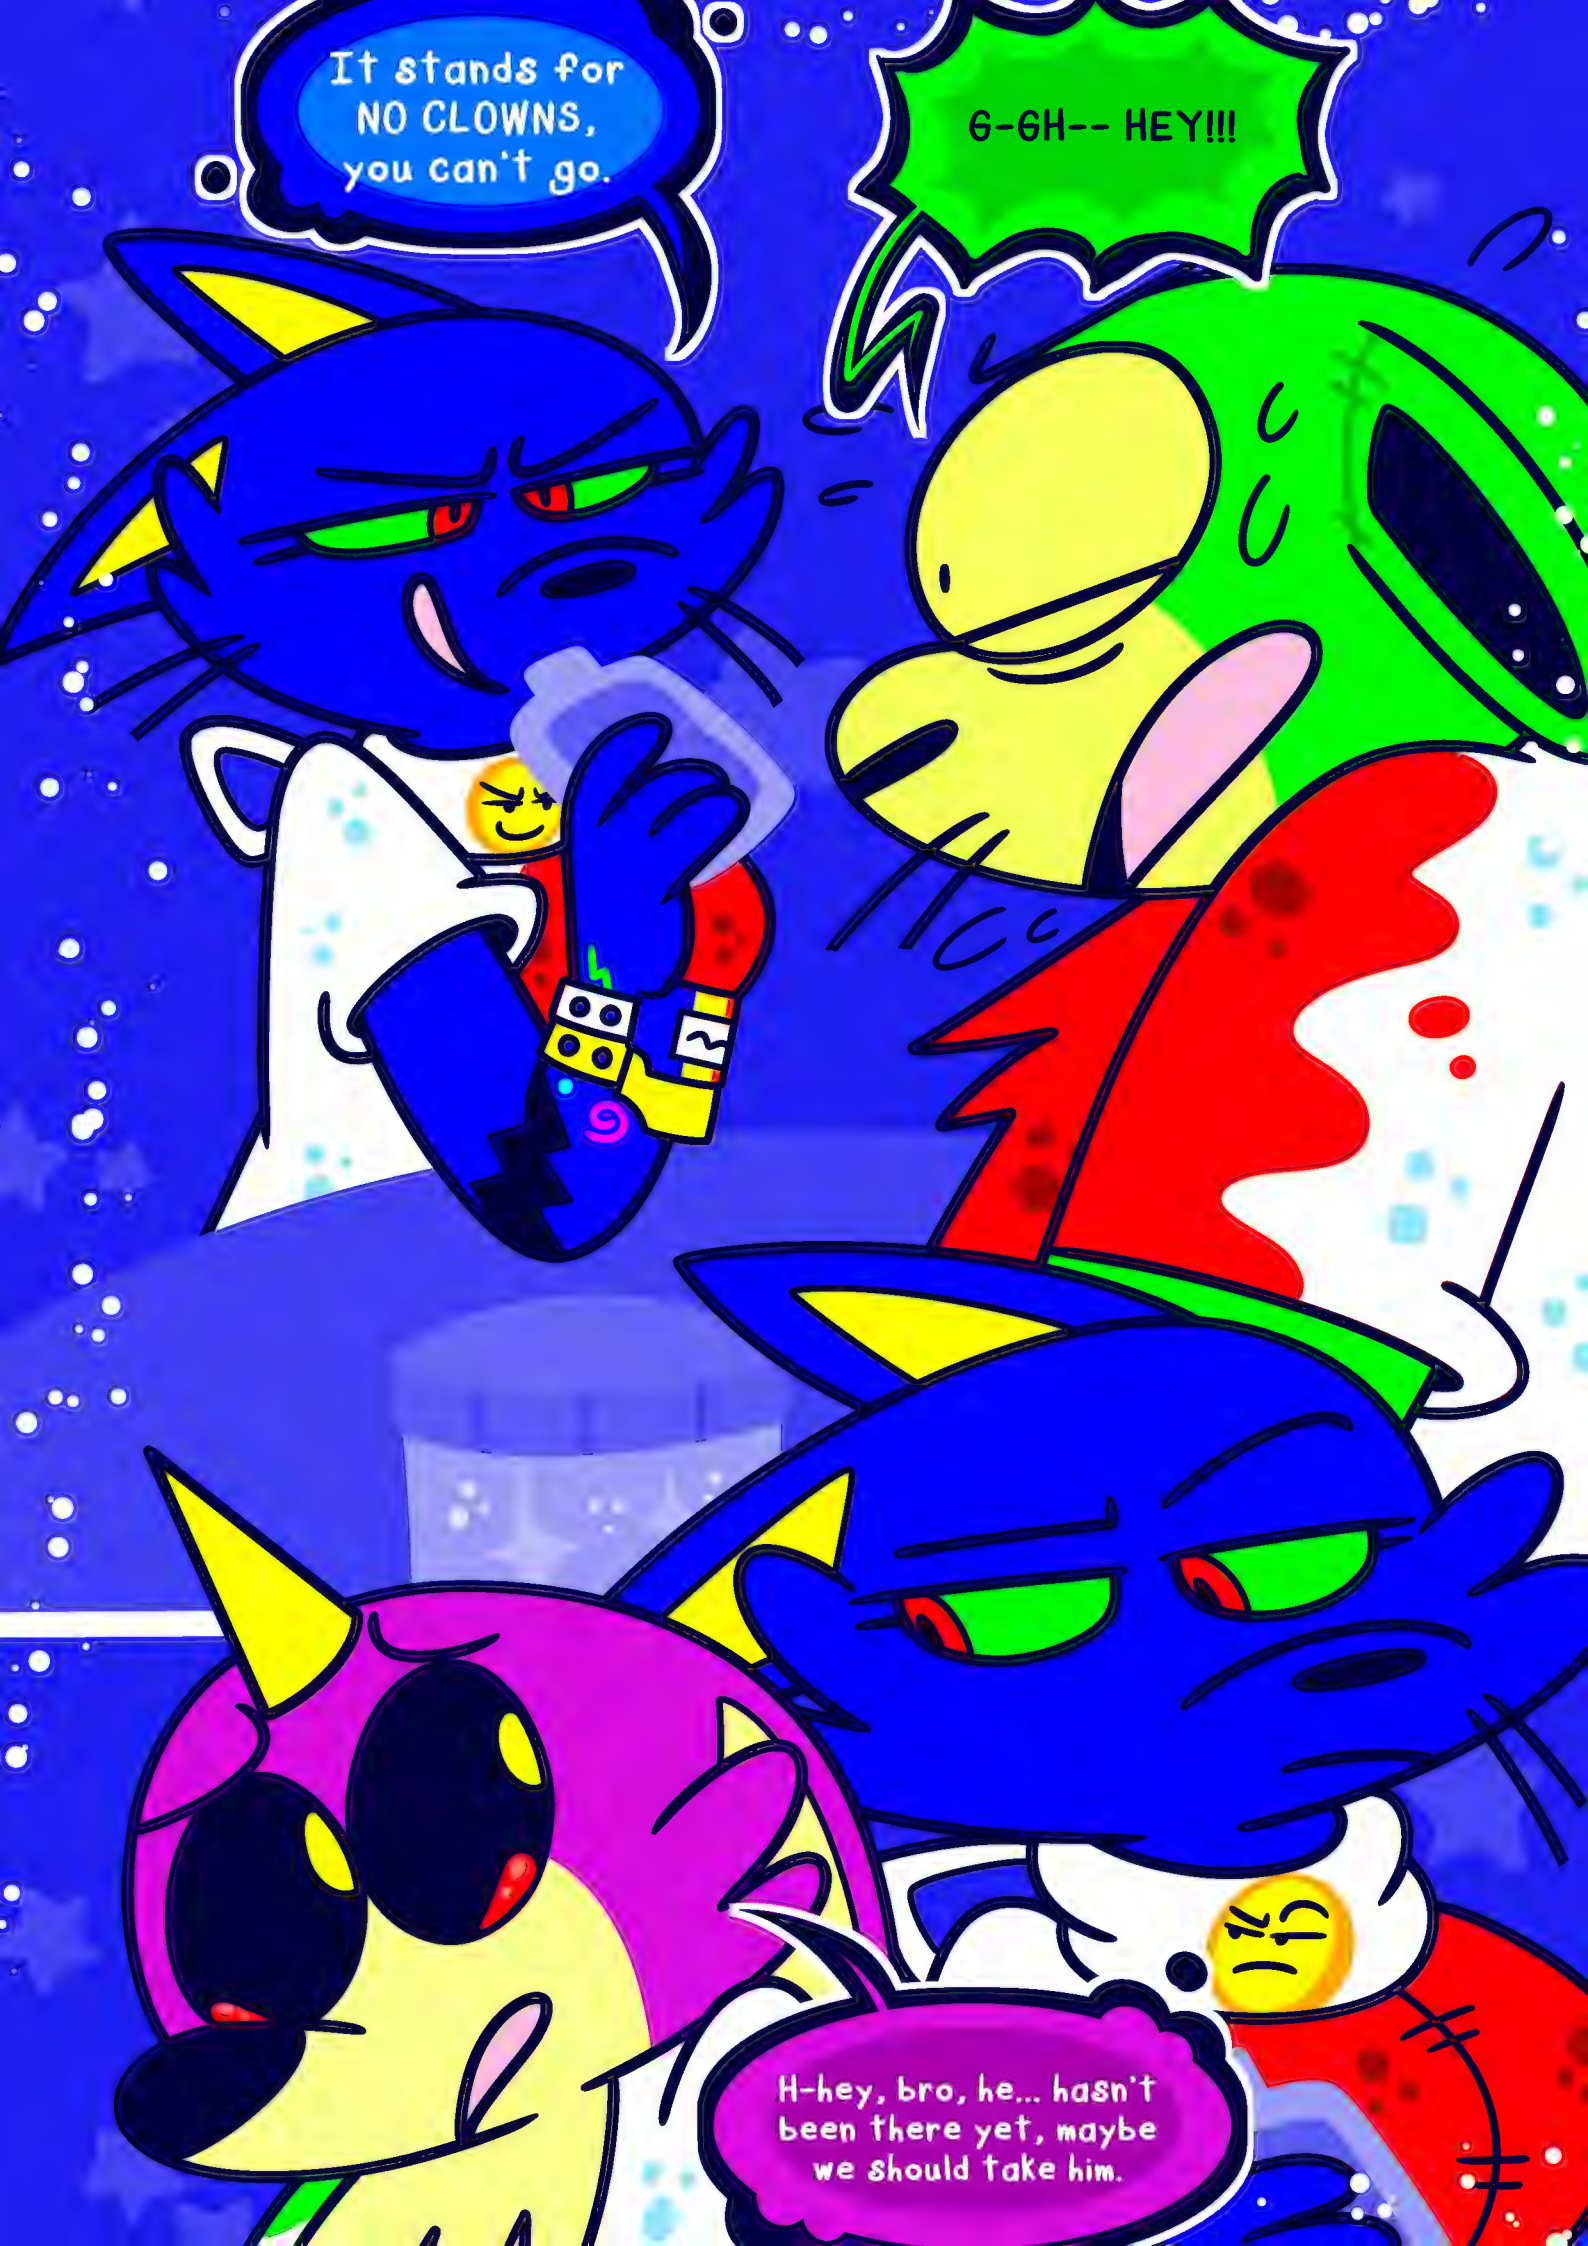
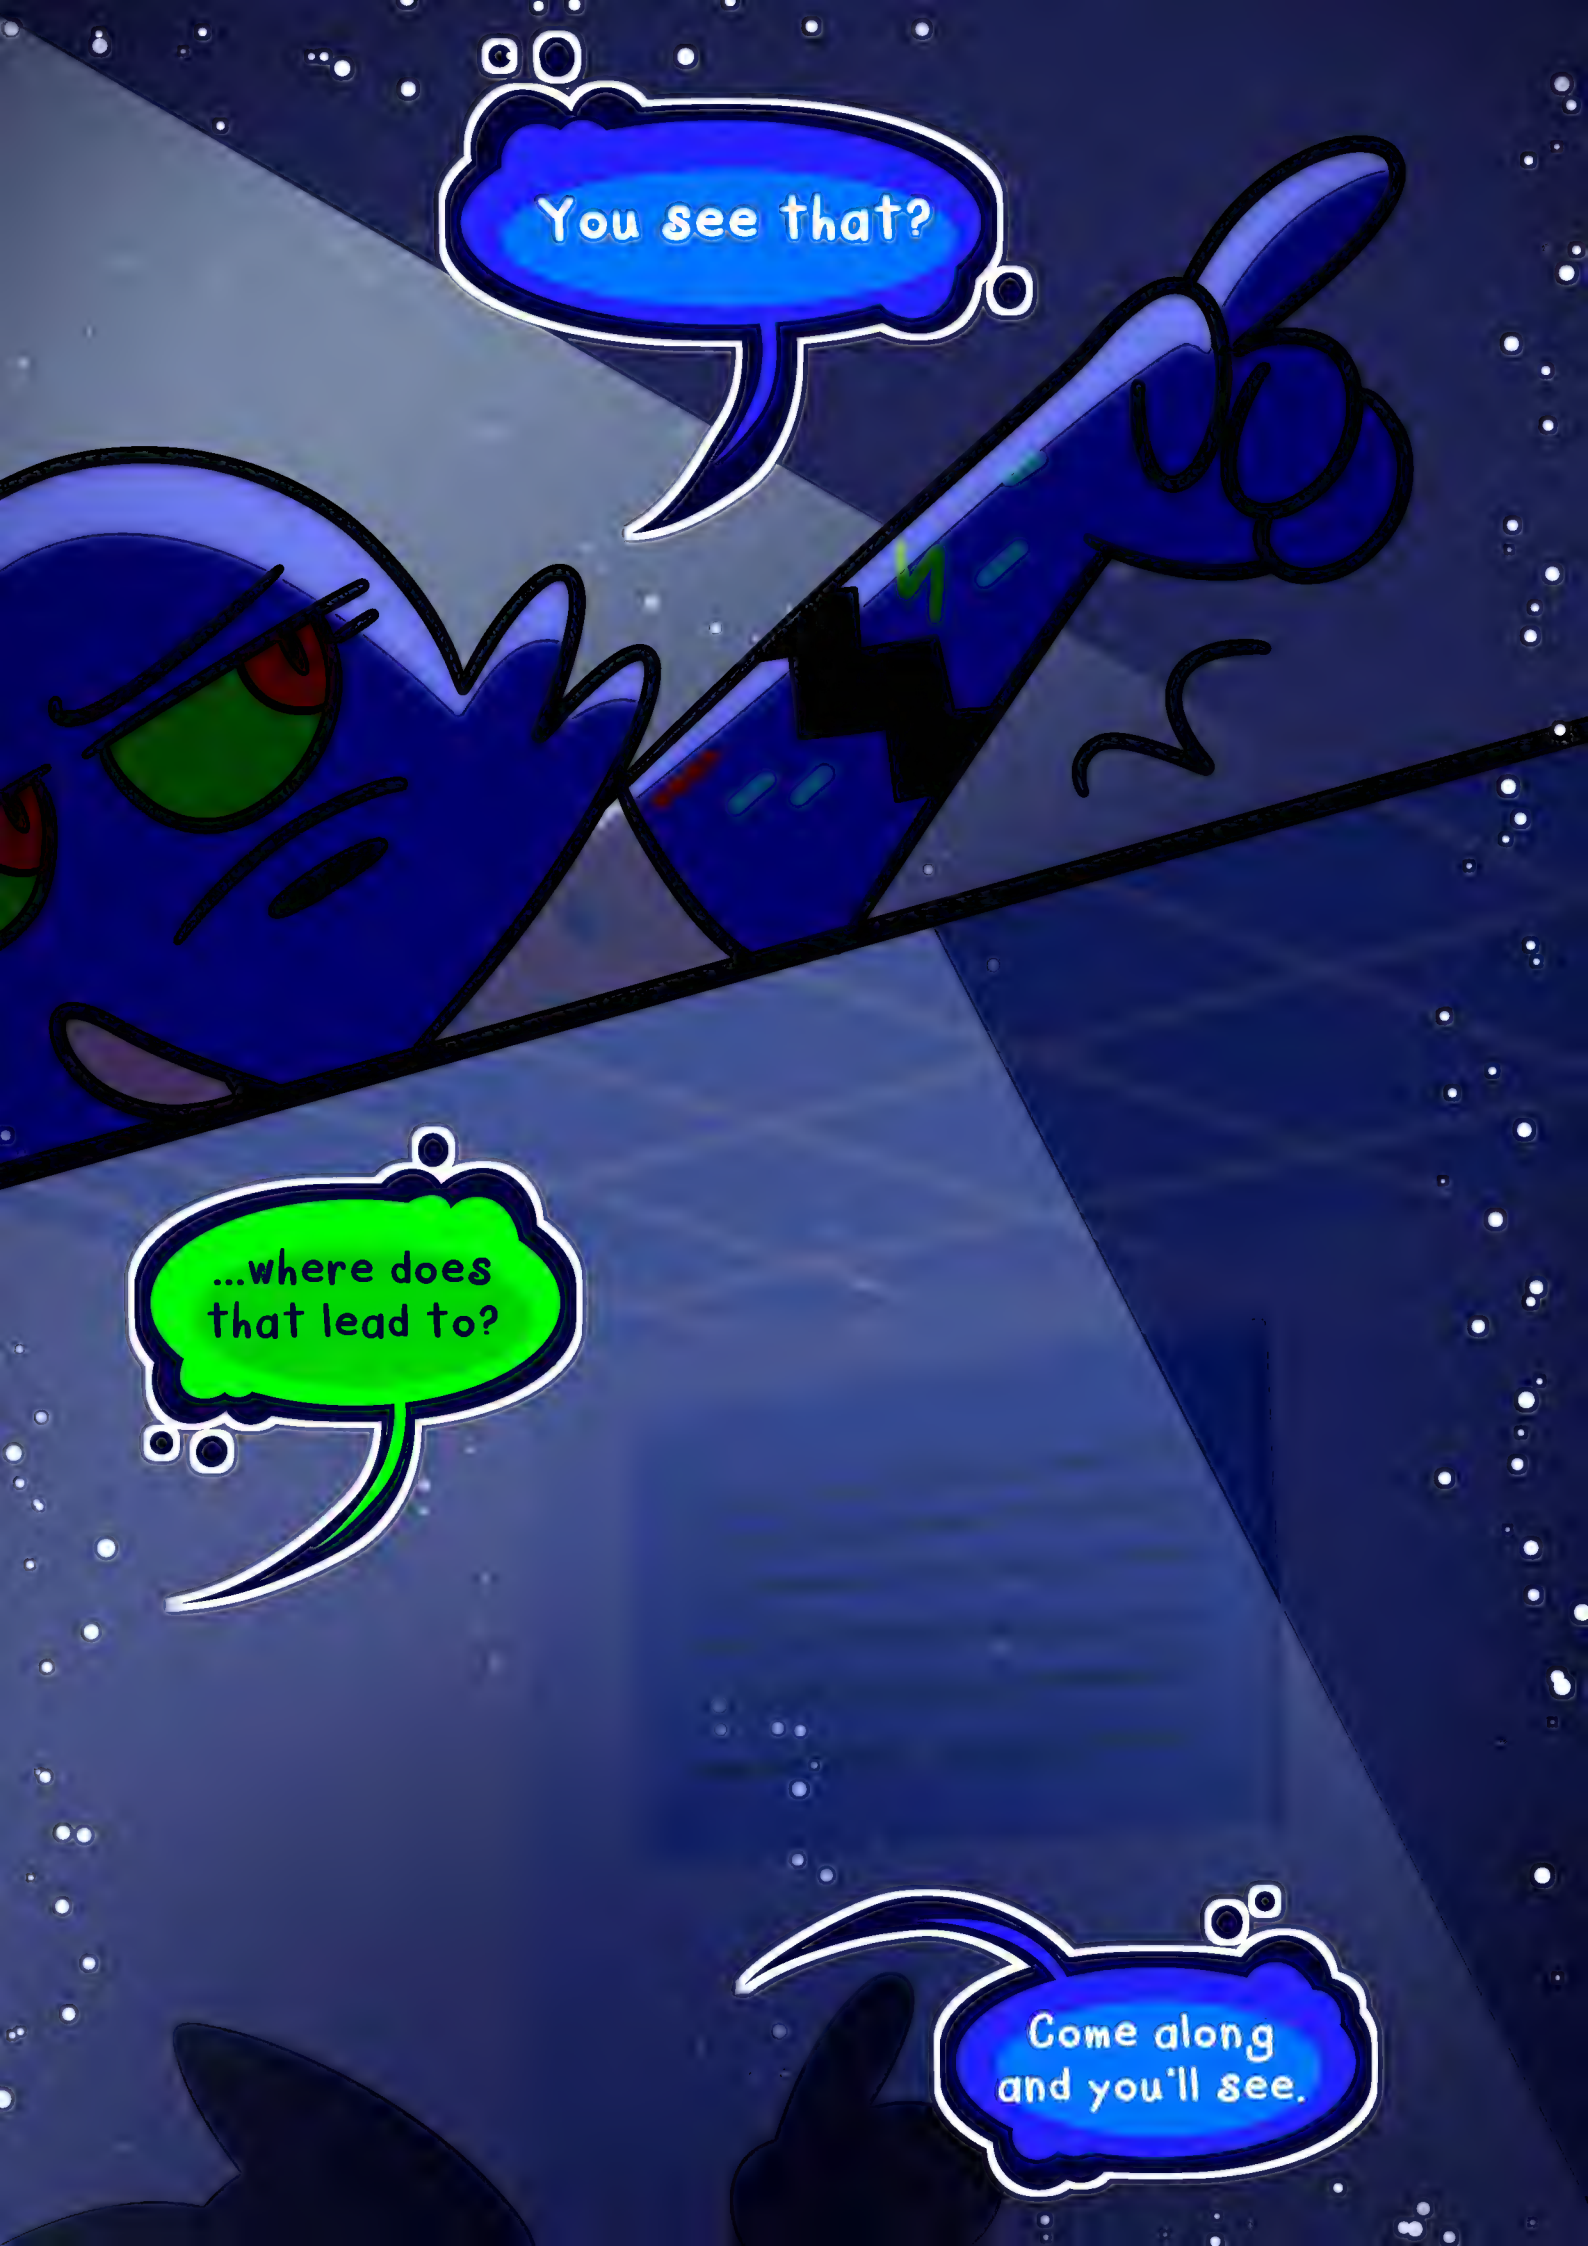
What's going on, dude?
N-nothing, bro... just um... low power today...
You wanna go to the NC and talk about it?
THE WHAT?



It stands for NO CLOWNS, you can't go.
G-GH-- HEY!!!
H-hey, bro, he... hasn't been there yet, maybe we should take him.

Just don't worry about it, it'll be fine.
So.. where are we going, exactly?
A secret, hidden place that nobody knows about. We go here to stay away from the staff, sometimes.

?
Where is it? This corner?
Have you learned nothing about us after all this time, Mr. Scientist? Isn't it your job to make observations?
I don't understand.



You see that?
...where does that lead to?
Come along and you'll see.

OUT OF
...you know, I never really thought about there being a morgue here, but it makes sense.

*SLAM!*
THIS... is our secret hideout, the Neglectful Club, or the NC.

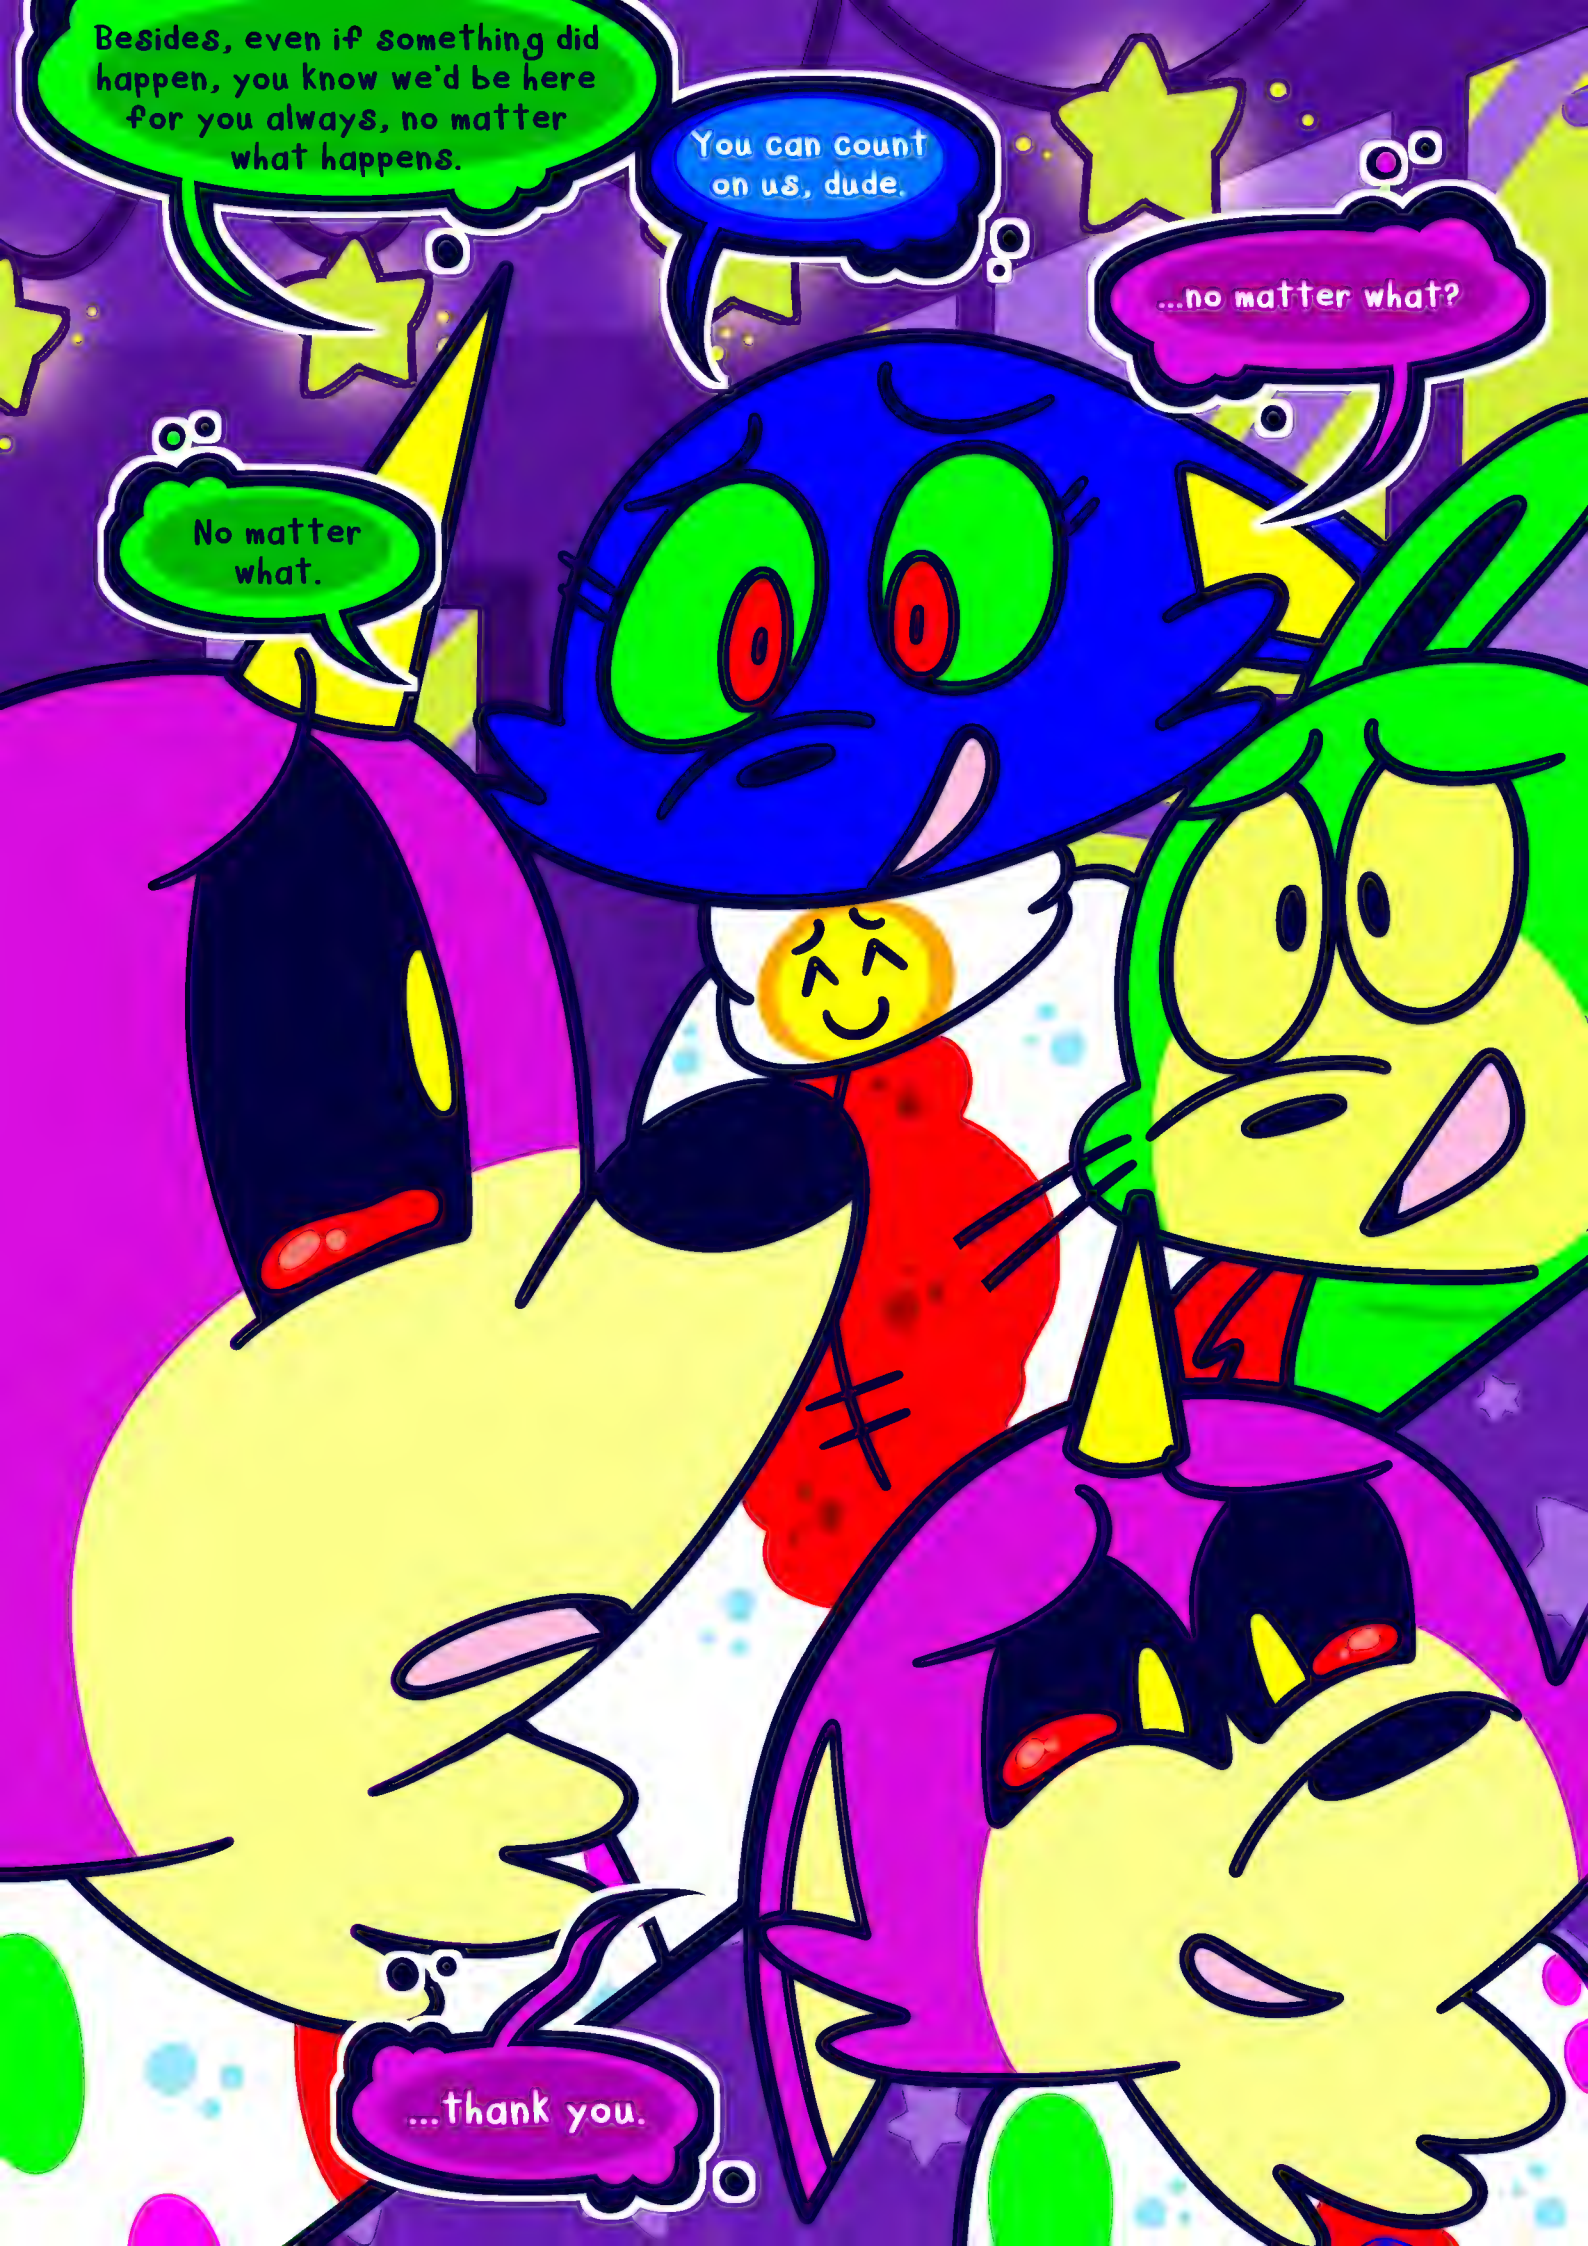
What a... charming... name.
It's sorta meant to be like a spin on the Sparkle Caring Club if that makes sense. Adding "sparkle" to it would have made it too long and hard to say, though.
Also, it kinda makes sense because they neglected and closed off this place.
I would assume that a morgue would be one of the most active places in the hospital, considering how many people die here.
Um... we don't really know...
Why is it closed off? Where do the bodies go?
But I don't think I want to know.

So what exactly do you use this place for?
Doin' stuff that the staff doesn't know about, like using electronics or shit like drinking... or... anything else like that.
It's just kinda a hangout spot to get a break. We can't stay in here for too long though because if we're gone for too long it'll be suspicious and they might try to find us.
It's also a place we can talk about things that we probably shouldn't talk about elsewhere, because nobody can really hear us in this place.

...which is why I wanted to bring Uni here, but I don't think that's possible now considering you're with us.
Oh, so you're gonna kick me out?
H-hey, bro, I can talk about it with him here, it's not like... really personal or anything like that, bro.

So... what's got your power low today, dude? Just depression?
N-no it's... it's nothing like that bro. Or... well...
Maybe it is, I don't know bro.
Is something bothering you?
...I just... I feel this... I can't even explain it. I had this nightmare last night and I've been unable to stop thinking about it.
I feel this horrible impending sense of doom all around me...

It feels like- like something really, REALLY bad is about to happen. I just...
I don't know what it is. And... and it scares me. Very badly bro.
Well, Cornelius, I think it's understandable that you would have feelings like this considering our living situation.
...yeah, Gangrene, I agree. You're probably just feeling a lot of anxiety, dude.



Besides, even if something did happen, you know we'd be here for you always, no matter what happens.
You can count on us, dude.
...no matter what?
No matter what.
...thank you.

I'm guessing he's really bad, then.

...sorry. I really don't like him. None of us do.
H-how many of you are there...?
A lot. We are former patients, families, former staff, and others just dedicated to taking down the disease.
We have had to move our headquarters many times to avoid having it discovered by the Doc or his followers.
We still protest, but it's never enough.
...and that's where you come in.

For over a decade, there have been people who vanish under mysterious circumstances related to the Sparklecare hospital.

Escaped patients, people who speak out, people who put their nose where it doesn't belong.

When people escape, sometimes they're never seen again.
People believe it's because the hospital took them out so they couldn't spread the truth.

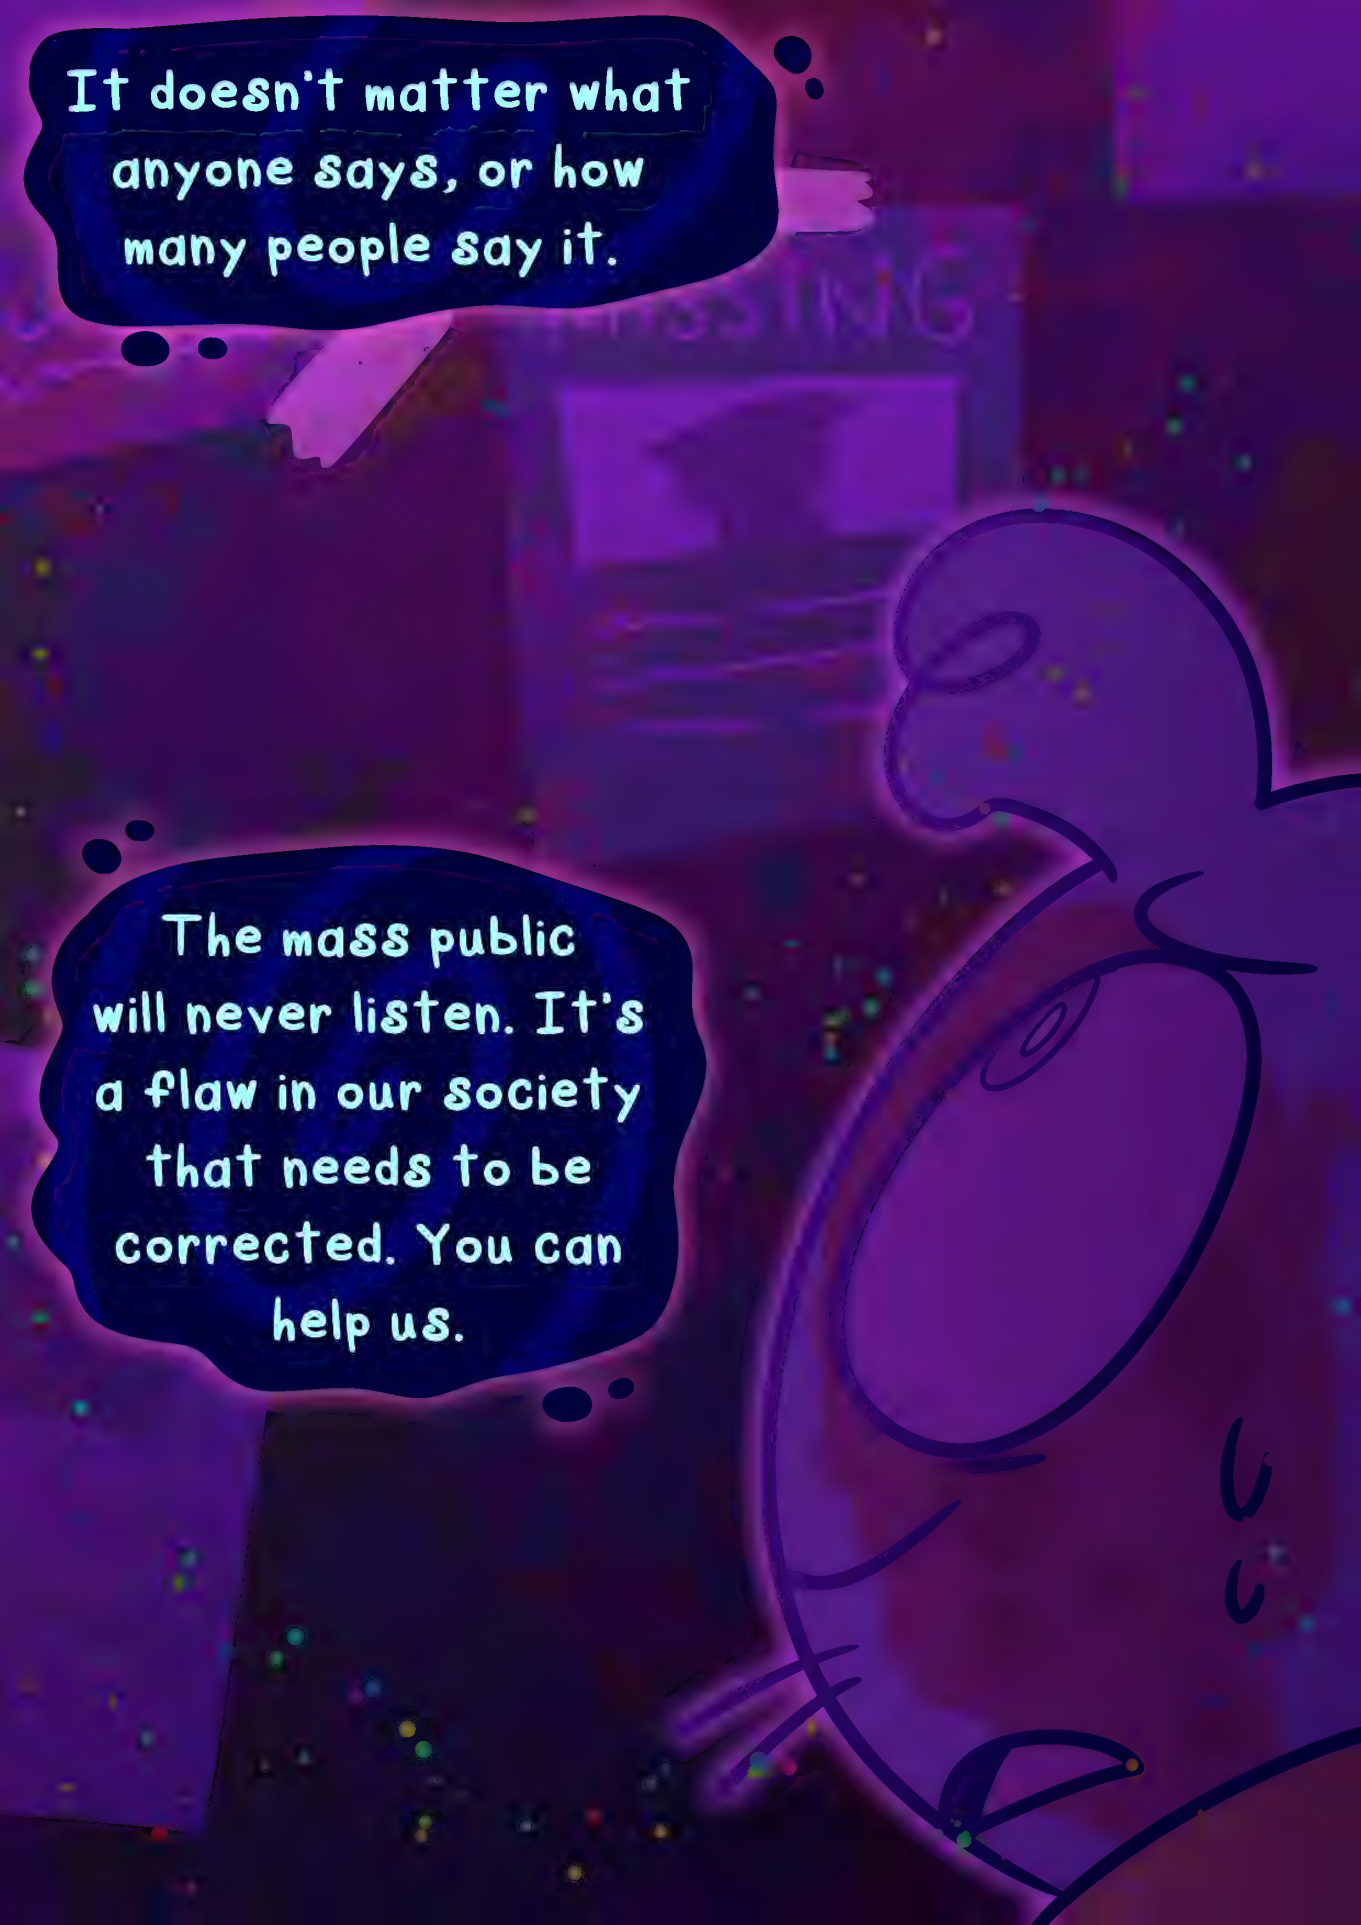
But... why do people not listen when there's so many people talking about it and speaking up about what happens there?
People who have power, whether it's social, political, or economical- can get away with anything. They can shut people up so easily, and people will listen to them more than the people who speak out.



It doesn't matter what anyone says, or how many people say it.
The mass public will never listen. It's a flaw in our society that needs to be corrected. You can help us.

B-but... what can I do? I'm just one guy.
Sometimes all it takes is one person to make that difference. Even the tiniest of efforts can change everything.

Charm, gather everyone to the day room. We're going to have a meeting to discuss our next steps.
